INCORR ENGINEERING & TRADING

We are Cathodic Protection engineers, materials manufacturer and stockist.

MANUFACTURER

We are the prime manufacturer of most of the cathodic protection materials we supply, this means a cheaper price, speedier delivery and quicker response to enquiries, as well as complete quality control.

LARGE STOCKS & PROMPT DELIVERY

We hold extensive stocks in our warehouse of most of the materials and equipment used in Cathodic Protection systems. This enables customers to reduce their own inventories. Our extensive stocks enable rapid delivery to be made to satisfy urgent and emergency requests. You can contact us direct as we are fully experience in exporting by all methods.

QUALITY, APPROVED PRODUCTS & COMPETITIVE PRICE

Our products are manufactured through years of experience in this field. All our existing stocks are from well-known international suppliers which are manufactured to International Standards and approved by major end users. Our large stocks and prime manufacturing position allows us to offer very competitive prices.

Our office and warehouse is located at:

61, Kaki Bukit Avenue 1, #03-18, Shun Li Industrial Park, Singapore 417943.
